**RE: NTMP E Costilla Blvd Meeting #1**

The City of Centennial Traffic Engineering Services (TES) has been contacted by residents of the Walnut Hills neighborhood interested in traffic mitigation along E. Costilla Boulevard between S. Spruce Street and S. Uinta Street as part of the City's Neighborhood Traffic Management Program (NTMP). The Costilla Blvd NTMP application was selected as one of the City's 2020 NTMP projects and will focus on developing a traffic calming plan for E Costilla Blvd.

The NTMP process is designed to be a collaborative process between City staff and neighborhood residents. Because you are one of the affected residents (as shown on the map on the reverse side) and ultimately will be asked to participate in a ballot vote regarding traffic calming, you are invited to join the City's TES staff to discuss the project. Your meeting attendance on the following date is important in developing the best solution for residents of the area.

**Wednesday, February 19, 2020  
6:30 p.m. – 8:00 p.m.  
Walnut Hills Elementary School Cafeteria  
Walnut Hills Elementary School  
8195 E. Costilla Blvd  
Centennial, CO 80112**

If you have any questions or comments prior to this meeting, please contact Lindy Howard at (720) 286-5327 or by email at [lhoward@centennialco.gov](mailto:lhoward@centennialco.gov).
